★ GOOD RATE OF PAY
including training and ongoing mentoring from a clinical team.

My Life is developing a team of experienced carers and nurses through a Personal Health Budget, to provide an exciting life for a young person with complex epilepsy. The team will be fully trained and their work overseen by an experienced clinical team.

to college, going out and about, socialising and taking part in hobbies and interests. The role is about making sure the young person lives a good life, whilst having their clinical needs met and receiving the best care and support possible.

You will work with the young person in a variety of settings, such as their home

This is a fabulous opportunity for the right candidates.
