

Get more out of life!

And help someone get more out of theirs.

My Life and Calico are working to ensure that people with long-term health conditions and disabilities have the chance to shape their lives by making the decisions that matter most to them about their health and wellbeing. Personal health budgets are a powerful way of achieving this, and we are working with East Lancashire Clinical Commissioning Group and Lancashire County Council to make this happen for local people in Burnley and the surrounding areas.

To deliver such an exciting and innovative piece of work, we are recruiting people to support individuals of all ages and with a wide variety of needs. The work will be based within families and the local community, and we are looking for people with big hearts who want to make a real difference.

In return, we are offering full training, an excellent salary, guaranteed hours, continual professional development, matching into a job that suits you, the opportunity to be part of a talented and diverse team, and the chance to share your hobbies and interests with others.

Have you got what it takes...?

FIND OUT MORE

To find out more, book on one of our **introductory sessions** and we will explain about the recruitment process and how to apply. Dates are either:
